Draw something that makes you happy.

### **Promise Yourself**

**To be so strong that nothing can disturb your peace of mind.**

**To talk health, happiness and prosperity to every person you meet.**

**To make all your friends feel that there is something in them.**

**To look at the sunny side of everything and make your optimism come true.**

**To think only of the best, to work only for the best, and to expect only the best.**

**To be just as enthusiastic about the success of others as you are about your own.**

**To forget the mistakes of the past and press on to the greater achievements of the future.**

**To wear a cheerful countenance at all times and give every living creature you meet a smile.**

**To give so much time to the improvement of yourself that you have no time to criticize others.**

**To be too large for worry, too noble for anger, too strong for fear, and too happy to permit the presence of trouble.**

This folded paper fan is an easy craft for kids: simple to make and required very little materials. Make some in different colors and any sizes, and use them to cool off in the hot summer months.

What you will need:

- Print this paper out or a blank piece of paper.
- Tape
- Something to draw with, crayons or markers

1. Decorate your piece of paper with your design. For this you can use a pencil to draw it out and color them in with crayons, pencil crayons or markers.
2. Start at one end of the paper. Fold at each line, and follow that by another one inch crease in the opposite direction. Repeat this until the entire paper is folded.
3. Take one end of the folded paper and pinch it together. This will leave the other end open. Just fan out this end.
